

Connecticut General Assembly

OFFICE OF FISCAL ANALYSIS

CONNECTICUT'S CAPITAL BUDGET

A Description of its Components and Process

FEBRUARY 2003

Connecticut's Capital Budgeting Process (Bonding)

1. Capital Budgeting

A comprehensive budget plan must include two essential elements: an operating budget to provide financial resources for daily activities, and a capital budget to deal with long-term expenditures such as the construction of new buildings. Together these two elements provide both the facilities and the services needed to fulfill the functions of government.

Capital expenditures raise special difficulties because they are large and irregularly timed. Projects such as school buildings, streets, sewage facilities, etc. demand long-range planning to establish priorities and minimize the financial impact of large expenditures of public funds.

2. Agency Capital Project Requests and the Governor's Recommended Capital Budget

Connecticut's Capital Budget includes capital projects and financial assistance programs. Capital projects include new state-owned facilities and equipment, and improvements, repairs and additions to existing state-owned facilities, including equipment. Financial assistance programs are administered by state agencies and provide funds to municipal and non-government entities through grants and/or loans.

The capital budgeting process includes all of the same agents involved in developing the operating budget, i. e., the state agencies, the Office of Policy and Management (OPM), and the Governor. In addition, for projects that fall within the mandates of the "State-Wide Facility and Capital Plan", the State Properties Review Board and the Department of Public Works are also involved.

The process begins when an agency requests funding of a capital project or financial assistance program. All agencies must submit Capital Project Fund Requests (Form B-100) to OPM by the first of September of each even-numbered year. For capital projects this form provides the following information for each individual project: (1) description, (2) location, (3) status, (4) justification, and (5) preliminary information on its impact on the operating budget when the project is completed. The B-100 form also indicates whether the project is part of the agency's Departmental Master Plan and if it should be considered for inclusion in the "State-Wide Facility and Capital Plan."

The "State-Wide Facility and Capital Plan" is covered under CGS Sec. 4b-23 and deals with State buildings, property, and property improvements for a five-year period. Projects of the following types are not included in the Plan: (1) repairs or renovations to state-owned facilities, which do not result in additional space or a change in use; (2) highways; (3) bridge construction or repair; (4) mass transit; (5) parking lot facilities not associated with a structure; (6) land acquisition for State parks and forests; and (7) support facilities such as power plants, garages, etc.

Projects considered for inclusion in the "State-Wide Facility and Capital Plan" are subject to additional administrative overview, which takes seven and a half months. OPM reviews the B-100 forms it receives from agencies and gives consideration to where projects appeared in last year's plan and whether a project is still viewed as a priority by the agency. The Department of Public Works verifies the cost estimates provided by the agency on the B-100 form and conveys this information to OPM by the first of December of each even-numbered year.

OPM is required by statute to present the "State-Wide Facility and Capital Plan" to the State Properties Review Board by the fifteenth of February of each odd-numbered year. The Board is required to submit its final recommendations to OPM by the first of March of each odd-numbered year. The final Plan is presented to the Legislature by the fifteenth of March of each odd-numbered year. Inclusion of a project in the "State-Wide Facility and Capital Plan" does not guarantee that funding will be provided for it. In fact, the Plan is actually submitted about five weeks after the Governor submits his Recommended Operating and Capital Budgets (early February of each odd-numbered year) to the Legislature (CGS Sec. 4-71).

Capital budget projects that fall outside of the mandates of the "State-Wide Facility and Capital Plan" are considered and evaluated by OPM together with those included in the Plan, since the Governor's

Recommended Capital Budget must address both types of capital projects. The projects included in the Recommended Capital Budget are selected based on the Governor's determination of their priority and the State's ability to finance them.

3. Legislative Evaluation and Passage of Bond Authorizations

The Legislature may authorize new and revised capital projects. Submission of the Recommended Capital Budget initiates the legislative role in the process. The bond bills, which are based on proposed bills from the Governor, originate in the Bonding Subcommittee of the Finance, Revenue and Bonding Committee. The subcommittee reviews the Governor's recommendations and makes modifications to the proposals. It also reviews and recommends legislative action for bills submitted by individual legislators and other committees. The subcommittee submits its recommendations to the Finance Committee in the form of bills (usually three or four per session). These bills are then sent, by tradition, to the Senate for action, followed by the House. When these bills are passed and signed by the Governor, they become the new state bond authorizations. The term bond package refers to the collective impact of all of the bond acts passed in a legislative session.

The bond package usually includes:

- (1) A special act that authorizes general obligation bonds for state agencies and programs. The act does not amend statutory language.

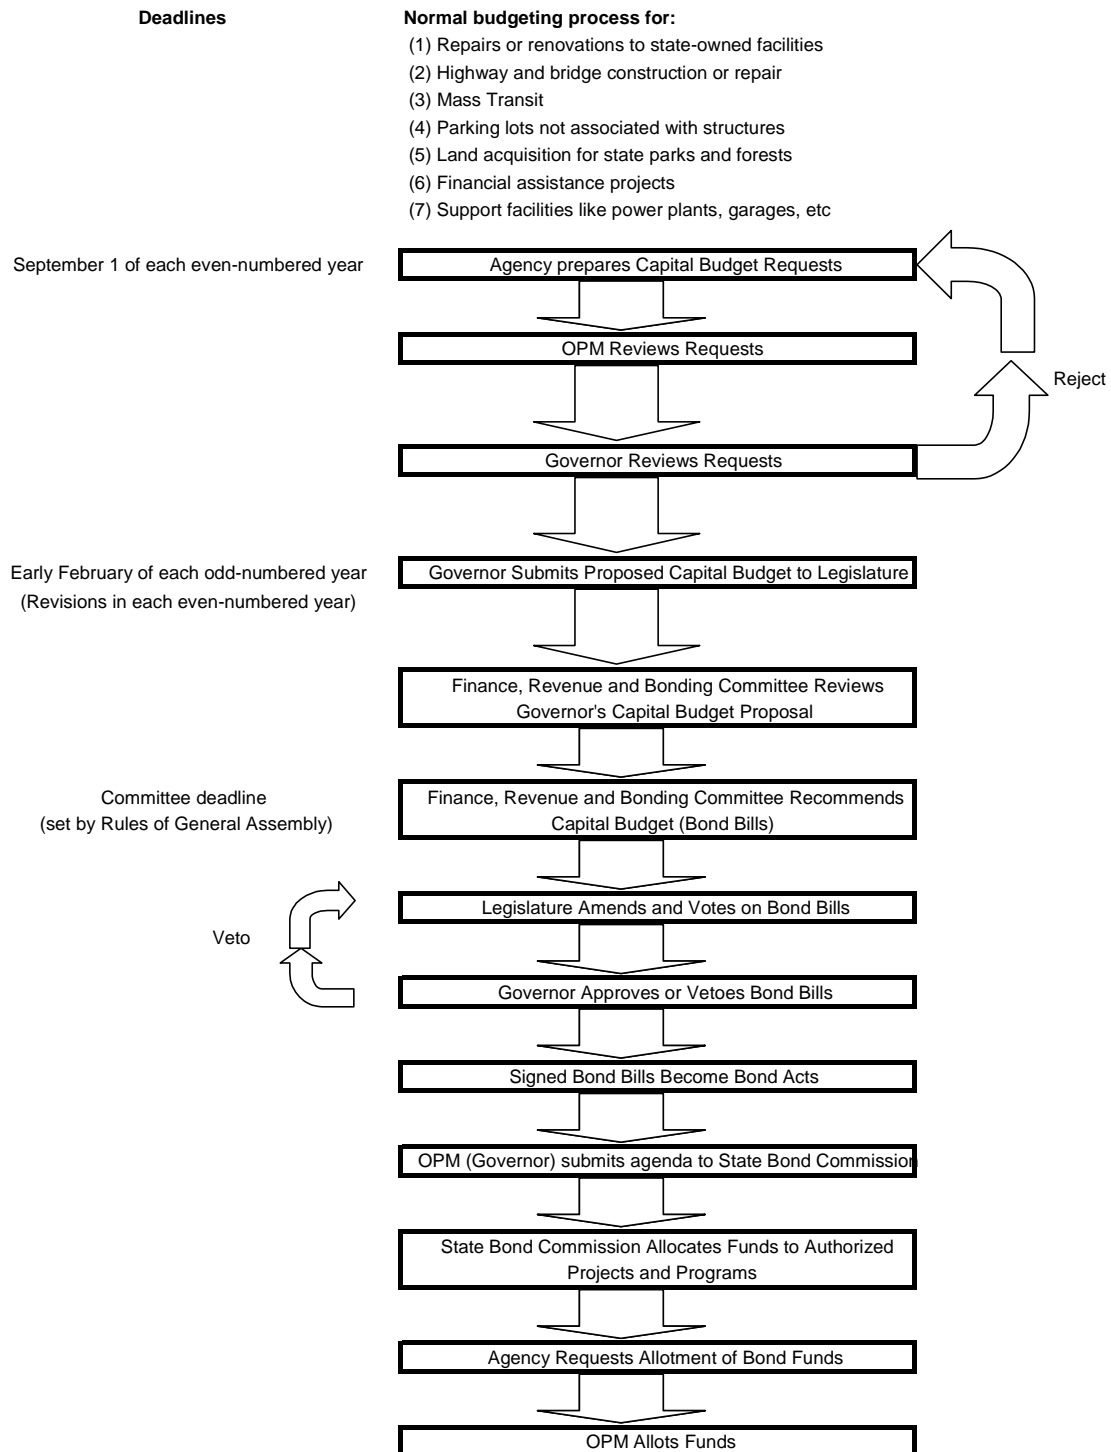

New bond authorizations consist of: (A) the state agency receiving the funds, (B) a description of the purpose for which the funds are to be spent, and (C) the amount of bond funds designated for this purpose.

The act also contains sections that change bond authorizations passed in prior years. Language changes alter the description of the purpose for which the funds are to be spent. Revisions or cancellations may increase or decrease the amount of money authorized for a project or program. Bond funds may be canceled because a project has been finished and the remaining money is not needed, or a decision has been made not to proceed with a project. Occasionally sections that increase prior authorizations are also included, for example where a project's cost is exceeding the funds authorized.

- (2) A public act that increases general obligation or revenue bond authorizations contained in the statutes. Examples are Urban Act bonds and Clean Water Fund bonds.
- (3) One or two public acts that increase Special Tax Obligation (STO) bond authorizations for transportation-related projects.

Figure 1 (page 4) shows the steps in Connecticut's capital budgeting process. **Table 1 (page 27)** shows the total* amount of General Obligation (GO) and Special Tax Obligation (STO) bonds authorized by the General Assembly between FY 82 and FY 03. **Table 2 (page 29)** shows bond authorizations by fund and agency between FY 82 and FY 03. (*Tables 1 and 2 show gross authorizations for agencies. Reductions to or cancellations of prior year authorizations appear separately.)

Figure 1
The Capital Budgeting

4. Bond Allocation and the State Bond Commission

Bond authorizations can be thought of as enabling legislation. For an agency to actually commit funds for a project, the bond funds authorized for the project must be allocated. This means that the State is prepared to finance the costs associated with implementation of the next phase of the project. The State Bond Commission (SBC) has statutory responsibility for the allocation process.

The functions of the SBC are: (1) to decide which projects submitted by the Governor to approve, through its power to allocate bond funds, and (2) to decide whether to approve the amount and timing of bond sales requested by the Treasurer. The Treasurer bases the bond sale decisions on the following criteria: (1) the state's requirements for capital projects, (2) the cash position of the state, (3) the current interest rate climate, and (4) the amount and timing of outstanding debt.

Each month except November, the SBC meets to vote on that month's bond agenda. The Office of Policy and Management (OPM) puts the agenda together in cooperation with the Governor's Office. The proposed bond allocations on the agenda give a brief description of the project, the amount of funds requested, a reference to the bond act that authorized the funds and a brief history of prior allocations for the project.

The SBC is primarily an Executive Branch commission and prior to 1978, there were no Legislative members of the Commission. The SBC is currently composed of ten members: the Governor, the Treasurer, the Comptroller, the Attorney General, the Secretary of OPM, the Commissioner of Public Works and the Senate and House Chairmen of the Finance, Revenue and Bonding Committee and the ranking members of the Committee. The Secretary of OPM serves as the Secretary to the Commission.

Table 3 (page 37) shows the total amount of General Obligation (GO) and Special Tax Obligation (STO) bonds allocated by the State Bond Commission between FY 82 and FY 01. **Table 4 (page 38)** shows bond allocations made by the State Bond Commission (SBC) between FY 92 and FY 02, categorized by the agency that received the funds (such as the Department of Public Works) or the functional area (such as Education.) The data is based on information provided in SBC agenda item descriptions.

5. The Allotment Process

Once a project has an allocation, it is the responsibility of the affected agency to request allotment of the bond funds. This signals OPM that the agency is ready to spend funds on the project. If the agency never formally requests an allotment, then the allocated funds are never provided to the agency. The Governor must approve allotments. When the agency receives approval, it may financially commit to spend the funds for the purposes of the project.

6. Types of Bonds

A. General Obligation (GO) Bonds – The state uses GO bonds to finance the construction of buildings, grants and loans for housing, economic development, community care facilities, school construction grants, state parks and open space. The General Assembly has also authorized the issuance of two specialized forms of GO bonds, UConn 2000 Infrastructure Improvement Bonds and Tax Incremental Financing (TIF) Bonds, which are described below.

The repayment source for all GO bonds is the general taxing power ("full faith and credit") of the State of Connecticut and debt service is paid through appropriations from the General Fund.

UConn 2000 Infrastructure Improvement Bonds – In 1995 the Legislature established a program to modernize, rehabilitate and expand the University of Connecticut's physical plant over a 10-year period. PA 95-230, as amended by PA 02-3 (MSS), authorizes the University of Connecticut to issue up to \$1.03 billion of its own bonds to fund the program. The statutes list sixty-two projects to be completed in two phases. The first phase, undertaken between FY 96 and FY 99, is estimated to cost \$382 million. The

second phase, which will be undertaken between FY 00 and FY 05, is estimated to cost \$630 million. In 2002 the Legislature added a third phase to the program, which will run for an additional 10 years. PA 02-3 (MSS) authorizes the University to issue an additional \$1.25 billion in bonds and lists 51 specific projects for this phase.

Tax Incremental Financing (TIF) Bonds – TIF bonds are a mechanism for financing capital projects that generate enough incremental revenue to pay debt service on the bonds. The Connecticut Development Authority (CDA) administers the TIF program. A summary of the TIF program and a list of the projects funded through TIF bonds appears in Section 7C.

B. Special Tax Obligation (STO) Bonds – STO bonds finance the state's portion of the cost of highway and bridge construction and maintenance. They also fund limited grants to towns for local road improvement. The repayment source for STO bonds is a dedicated revenue stream from the state's motor fuels tax, motor vehicle registrations, licenses and fees.

C. Revenue Bonds – Revenue bonds are used to finance a project with a pledged revenue stream, which is then used to pay debt service on the bonds. Examples are as follows:

1. Bradley International Airport Revenue Bonds – Bradley International Airport is owned by the state and operated by the Bureau of Aviation and Ports in the State's Department of Transportation. The General Assembly has authorized the issuance of revenue bonds for improvements at the Airport, payable from all or a portion of the revenues generated at the Airport. Legislation passed in 2001 removed the \$294 million-bond issuance cap for Bradley Airport but retained the requirement for the State Bond Commission approval of any new bond issue.

On 10/1/82 the State issued \$100 million Bradley International Airport Bonds. All of the outstanding maturities of this issue were subsequently refunded. On 3/15/01, the State issued \$213.2 million Bradley International Airport Revenue Bonds, comprised of \$194 million General Airport Revenue Bonds to fund a major terminal expansion, and \$19.2 million General Airport Refunding Bonds to refund certain 1992 Bradley bonds. As of 10/15/01 there were \$50.8 million of 1992 Bradley International Airport Revenue Refunding Bonds outstanding.

2. Bradley International Airport Parking Garage Revenue Bonds - Under a lease agreement between APCOA, a private company, and the state, a total of \$53.8 million in special obligation parking revenue bonds were issued in March 2000 to finance the construction of a parking garage at Bradley International Airport. The agreement stipulates that the state will lease the garage to APCOA and APCOA is responsible for constructing and operating the garage. The bonds are not obligations of the state.

3. Unemployment Compensation Fund Revenue Bonds – Unemployment compensation benefits in Connecticut are paid from unemployment compensation taxes collected from employers. The monies collected from unemployment compensation taxes are deposited in the state's Unemployment Compensation Fund and paid out as benefits.

Through a mismatch between revenues and expenses from 1989 through 1991, the Fund developed a deficit of about \$760 million by 7/31/93. The deficit was attributable to (1) a recession that caused sharp increases in unemployment rates, (2) the recession's length, and (3) a decline in employer tax payments caused by shrinking payrolls. The deficit was initially funded by borrowings from the Federal Unemployment Compensation Fund, with interest on these loans paid through assessments levied on employers in addition to unemployment compensation taxes. However, federal law imposed a 9/1/93 deadline for repaying the amount borrowed. If the deadline was not met, interest would begin to accrue on the debt balance and Connecticut employers' federal taxes would increase.

The Legislature reacted by passing PA 93-243, which (1) increased unemployment taxes to cover future expected unemployment benefits, (2) authorized a separate annual assessment, and (3) authorized the issuance of special obligation bonds to repay the federal borrowings and expected shortfalls in the Fund. In 1993 three series of special obligation bonds were issued totaling \$1,020.7 million. The bond proceeds were used to repay the federal borrowings, cover expected shortfalls in funds available for benefit payments and fund certain reserves. The pledged revenue stream for debt

service payment was a separate assessment, or surtax, paid by contributing employers. All of the outstanding bonds under this program were retired in 2001.

If the Fund experiences future shortfalls, the state has reserved the authority to issue additional bonds so that the total amount outstanding at any time does not exceed \$1 billion plus additional amounts for certain reserves and costs of issuance. The state has not incurred any additional federal borrowing since the issuance of the three series of bonds in 1993, other than borrowings for cash flow purposes.

4. Second Injury Fund Bonds - The Second Injury Fund (SIF) is a state-run workers' compensation insurance fund that pays lost wages and medical benefits to qualified workers. It was established in 1945 to encourage employers to hire persons with pre-existing physical impairments, such as injured veterans. An employer can transfer a workers' compensation claim to the SIF if a work-related injury combined with a pre-existing condition resulted in a disability greater than that that arose from the second injury alone. The State Treasurer is custodian of the SIF.

The operations of the SIF are financed by an assessment levied on insured employers and self-insured employers. The assessment for insured employers is a surcharge on workers' compensation insurance policy premiums while the assessment for self-insured employers is based upon the amount of their workers' compensation paid losses.

Starting in 1990, the SIF's expenses and assessments began to rise dramatically in response to several factors, including (1) expansion of program benefits, (2) high benefit rates, (3) absence of a claims management program to reduce the length of disability and to control medical costs, and (4) the ease of transferring claims to the Fund. This escalation in assessments combined with a downturn in the state's economic activity prompted government officials and state employers to search for ways to reduce the trend in increasing assessments.

In 1994 the state commissioned several studies to determine the reasons for the dramatic rise in assessments and to develop a long-term strategy to deal with the SIF's escalating costs. The first study estimated the actuarial liability of the SIF to be between \$4.9 billion and \$7.7 billion, based on the continuation of then current trends and practices in handling SIF cases. The studies also recommended substantial reforms designed to interrupt and reverse existing trends such as pursuing aggressive claims management, closing the SIF to future second injury claims and reducing long-term liabilities by settling claims on a one-time, lump-sum basis ("stipulated settlement"). In 1995 the Office of the State Treasurer implemented a reform program to change the agency's role from claims processing and payment, to claims management. The program included hiring experienced workers' compensation executives, installing an upgraded management information system and using stipulated settlements to reduce the SIF's outstanding liability.

The Legislature enacted SIF reforms in 1995 and 1996 based on recommendations from the studies. These included (1) closing the SIF to claims resulting from injuries occurring on or after 7/1/95, (2) setting a final date of 7/1/99 for the transfers of these claims to the SIF, (3) authorizing the issuance of not more than \$750 million in revenue bonds and notes outstanding at any one time to provide funds for stipulated settlements, and (4) capping the premium surcharge rate at 15% of the standard premium for insured employers for FY 96 through FY 98. The assessment rate for self-insured employers was similarly limited for FY 96 through FY 98. The first issue of \$100 million of SIF revenue bonds was made in November 1996 and the second issue of \$124.1 million, with a final maturity of 2015, was made in October 2000.

D. Clean Water Fund (CWF) Program –This program provides both grants-in-aid (financed with GO bonds) and loans at a 2% interest rate (financed with revenue bonds) to municipalities to fund various State and federally mandated (1) water pollution control projects (including waste water treatment (sewer) projects, nutrient (nitrogen) removal and resource restoration projects to protect the Long Island Sound) and (2) drinking water projects. All projects receive a 20% grant on total eligible sewer project costs, except for combined projects, which receive a 50% grant. Nitrogen removal projects receive a 30% reimbursement. Municipalities receive a loan for the remainder of the eligible costs. A 55% grant is available for planning projects in lieu of the grant and loan, at the discretion of the municipalities. As an

incentive to create regional authorities where possible, the grant-in-aid portion increases from 20% to 25% for most projects, and to 55% on combined sewer projects.

The debt service on CWF GO bonds and revenue bonds is paid from the General Fund. The debt service payments on CWF revenue bonds are a combination of (1) loan payments from municipalities who receive CWF loans, (2) investment earnings on the bond reserve fund required by statute, and (3) a General Fund subsidy (the amount needed to cover the remaining portion of the debt service). In prior years the General Fund subsidy was about 1.75%. However, due to low market interest rates in FY 03, no General Fund subsidy is currently required for new issues of CWF revenue bonds.

The General Assembly authorized the issue of up to \$999.4 million revenue bonds for the CWF Program. As of 10/15/01, \$612.3 million revenue bonds (excluding refunded bonds) were outstanding.

E. Certificates of Participation - The State has issued certificates of participation for two projects: (1) the development of the Middletown Courthouse, and (2) the Connecticut Juvenile Training School Energy Center Project. In both cases, the State has signed a lease-purchase agreement with the developer of the project and the rental payments pledged by the State are used to securitize the issuance of the bonds. The State has treated this method of lease financing as general obligation debt. (The State also has other standard leasing arrangements for the development of courthouse facilities that are not treated as general obligation debt because the State is not a participant in the securitization of the debt.)

F. Contingent Liability Debt – Contingent liabilities are potential financial responsibilities that may become real financial responsibilities at some point if some other party or organization fails to perform. Two methods have been used to extend the state's credit for bonds issued by various quasi-public state bond-issuing authorities, certain municipalities, and regional water authorities: (1) the special capital reserve fund (SCRF) and (2) the direct guarantee.

1. Special Capital Reserve Fund (SCRF) - A SCRF is a debt service reserve fund set up at the time the bonds are issued, in an amount equal to the lesser of either one year's principal and interest on the bonds or ten percent of the issue. If the borrower makes the scheduled debt service payments, the interest earnings on the reserve fund will pay the interest on the bonds that created it and the principal will go to retire the final maturity of the bond issue.

If the borrower is unable to pay all or part of the scheduled debt service payments, the reserve may be drawn upon to pay debt service. The reserve provides up to a year's adjustment time to deal with a revenue shortfall. When the SCRF has been drawn down in part or completely, a draw on the General Fund is authorized and the reserve is fully restored. The draw on the General Fund is deemed to be appropriated and is not subject to the constitutional or statutory appropriations cap. All that is required is a certification by the issuing authority of the amount required. If draws on a SCRF continue, the annual draws on the General Fund required to refill it also continue.

The following quasi-public authorities may issue SCRF-backed bonds:

a. Connecticut Housing Finance Authority (CHFA) – CHFA was created in 1969 as the Connecticut Mortgage Authority. The Legislature substantially expanded its powers in 1972 and gave it its current name. CHFA issues bonds to finance home mortgage loans and rental housing developments. In order to help the agency establish a creditworthy name in the bond market, CHFA was permitted to issue all of its bonds with SCRF backing. As of 10/15/01, CHFA had \$3.2 billion in outstanding SCRF-backed bonds under its Housing Mortgage Finance Program and \$19.8 million under its Special Needs Housing Mortgage Finance Program.

b. Connecticut Development Authority (CDA) – CDA was created substantially in its present form in 1973. The Legislature gave it broad powers to issue bonds for economic development projects and permitted up to \$450 million of those bonds to be secured by SCRFs (CGS Sec. 32-23j) to improve marketability of the bonds. CDA is permitted to use reserve funds for the Umbrella Program and the General Obligation Bond Program. Under the Umbrella Program, multiple small industrial loans are packaged into composite bond issues, which are backed by SCRFs. CDA established its second SCRF-backed program, the General Obligation Bond Program, in November 1993 to finance eligible economic development projects. As of 10/15/01, CDA had \$44.7 million in outstanding

SCRF-backed bonds under its Umbrella Bond Program and \$19.9 million under its General Obligation Bond Program.

c. Connecticut Higher Education Supplemental Loan Authority (CHESLA) – CHESLA was established in 1982 to finance student loans. Its initial issue was backed by the credit of three participating higher education institutions and only students at those institutions could receive loans. In 1984 CHESLA was permitted to issue bonds backed by SCRFs so that loans could be made available to students regardless of whether they attended institutions that were able to offer credit backing. As of 10/15/01, CHESLA had \$121.8 million in outstanding SCRF-backed bonds.

d. Connecticut Health and Education Facilities Authority (CHEFA) – CHEFA was established to assist in the financing of facilities for educational or health care purposes through the issuance of bonds. These facilities include colleges and universities, secondary schools, nursing homes, hospitals, childcare facilities, and any other qualified non-profit institution.

In 1992 the Legislature authorized CHEFA to issue tax-exempt and taxable SCRF-backed revenue bonds to finance projects at nursing homes. The nursing home financing program, which is no longer issuing new bonds, was aimed at permitting refundings and new financings for nursing homes that are occupied by a large proportion of Medicaid clients. As of 10/15/01, CHEFA had \$154.2 million in outstanding SCRF-backed bonds under this program.

The Legislature also authorized CHEFA to issue SCRF-backed revenue bonds to finance facility improvements such as housing, student centers, food service facilities and other auxiliary service facilities at public institutions of higher education, including the Connecticut State University System (CSUS). CSUS has pledged University student fees as a source of funds for debt service payments on the bonds. As of 10/15/01, \$87.3 million in SCRF-backed bonds for CSUS were outstanding. Because many CSUS facilities were formerly financed through self-liquidating GO bonds, implementation of this program is expected to limit the need for future GO bond issues for this purpose.

In 1997 the Legislature authorized CHEFA to finance the Connecticut Child Care Facilities Program. This program does not use SCRF-backed bonds but rather appropriated funds to: (1) guarantee loans through the Loan Guarantee Program, or (2) provide deferred, low interest, or interest-free loans through the Child Care Facilities Direct Revolving Loan Program. Both of these programs are administered through the Department of Social Services for the construction, rehabilitation or improvement of childcare and child development facilities.

e. Connecticut Resource Recovery Authority (CRRA) – CRRA was established in 1973 to implement a statewide program of solid waste recovery. To enhance the marketability of its bonds, it was authorized to issue up to \$725 million in SCRF-backed bonds. A total of \$519 million in CRRA bonds have been issued and \$297.5 million were outstanding as of 10/15/01. The bonds financed the Mid Connecticut (Hartford), Wallingford and Southeastern Connecticut (Preston) resource recovery plants.

f. Assistance to Municipalities – The table below summarizes contingent liabilities undertaken by the State to assist municipalities facing budgetary deficits:

	<i>Waterbury (SA 01-1, SA 01-2)</i>	<i>West Haven (SA 92-5)</i>	<i>Bridgeport (SA 88-80, 89-23, 89-47, 90-31, 91-40)</i>	<i>Jewett City (SA 93-4)</i>
Authorization	<ul style="list-style-type: none"> • Aldermen may authorize, by resolution, up to \$100 million in state-guaranteed deficit funding bonds and up to \$75 million in interim notes ¹ • Financial oversight board must approve deficit funding bond issuance in advance • OPM secretary and state treasurer must approve issuance of interim notes in advance 	<p>City council majority can authorize, by resolution, up to \$35 million in state guaranteed bonds, with governor's written approval, for FY 1991 & 1992 deficits only</p>	<ul style="list-style-type: none"> • Common Council can authorize issuance of bonds & bond anticipation notes to cover up to 50% of specified fiscal year deficits until eliminated • City cannot borrow money for other purposes during emergency period 	<ul style="list-style-type: none"> • Borough voters must approve bonds • No dollar amount specified
<i>Terms and Conditions</i>	<ul style="list-style-type: none"> • Aldermen can delegate to mayor and city finance director power to set bond terms and conditions • OPM secretary and state treasurer must approve terms and conditions in advance • Maximum term – 20 years for bonds; 18 months (including renewals) for interim notes 	<ul style="list-style-type: none"> • Maximum term – 10 years • Governor must approve any bonds with maturities greater than five years, whether or not backed by the state • City council can delegate to mayor & board of finance power to set terms & conditions 	<ul style="list-style-type: none"> • Council can delegate to mayor power to set bond terms and conditions, subject to board's approval • City can issue 20-year bonds and 12-month notes under terms and conditions set by mayor and approved by board 	No provision
Assurances	<ul style="list-style-type: none"> • State-backed SCRF • City must use bond proceeds to repay interim notes first • City may agree not to withdraw money from SCRF that would reduce it below required minimum unless no other funds were available • City may agree not to issue more SCRF-backed bonds if they would reduce fund below minimum <p>State pledges not to limit or alter act guarantees until bonds are repaid, unless bondholders are protected</p>	<ul style="list-style-type: none"> • Revenue intercept & debt service fund • State-backed SCRF • State pledges not to limit or alter guarantee until bonds are paid off 	<ul style="list-style-type: none"> • Property tax intercept placed in an indenture of trust • State-backed special capital reserve fund (SCRF) for up to \$35 million • City must affirm bondholders rights and benefits and use bond proceeds to repay notes first • State advances funds appropriated to city for other purposes if it defaults on bond payments <p>State pledges not to limit or alter act until bonds are repaid, unless bondholders are protected</p>	<ul style="list-style-type: none"> • Property tax intercept & debt service fund for obligations with terms more than 1 year • State-backed SCRF, if state treasurer approves & OPM secretary & treasurer certify that bonds cannot be sold without one • State pledges not to limit or alter act until bonds are repaid, unless bondholders are protected <p>Trustee, after written request by holders of 25% of principal of outstanding bonds, can seek (1) mandamus to enforce their rights, (2) injunction to stop unlawful acts, or (3) acts that violate their rights, or bring action on the bonds</p>

¹ The City of Waterbury issued \$45 million in bond anticipation notes on May 22, 2001, with a maturity date of April 15, 2002. These were permanently financed with the issuance of a total of \$97.5 million in SCRF-backed bonds (\$82.1 nontaxable and \$15.4 million federally taxable) on April 1, 2002.

2. **Direct Guarantee** - In contrast to a SCRF-backed reserve fund which provides lead time for the issuer to try to improve revenues and lead time for the state to come up with money to restore a reserve, a direct guarantee provides neither. It commits the General Fund to instantly step up if the issuer has insufficient funds to make a debt service payment. While the authority to issue SCRF-backed bonds has been granted to quasi-public authorities that operate on a statewide level, the authority to issue bonds backed by direct guarantees has been limited to two regional water authorities and one municipality:

a. **Southeastern Connecticut Regional Water Authority** (Groton) – The Authority is permitted to issue up to \$15 million in bonds backed by a direct guarantee, subject to the approval of the State Bond Commission. The guarantee was provided because it was unlikely that the authority could establish its own credit. As of 10/15/01, a total \$0.7 million in guaranteed bonds remained outstanding. Amounts owed by the Authority are to be repaid by 7/1/2016.

b. **Valley Regional Water** (Derby) – The statutory language for the Southeastern Connecticut Regional Water Authority was copied to finance a feasibility study as to whether the Valley Regional Water Authority should be developed. The language permitted the newly constituted Authority to borrow \$200,000 with a state guarantee. The feasibility study concluded that purchasing water companies in the region was not feasible so the Authority disbanded itself and defaulted on the remaining loan balance of about \$137,000. The state paid this balance on the day the debt service was due.

G. Private Activity Bonds - These are revenue bonds issued by quasi-public authorities or municipalities on the credit of a private borrower or a pool of borrowers. The bonds are not a state obligation because the private borrowers pay the debt service. The statutes refer to private activity bonds as “industrial development bonds” (CGS Secs. 32-140 to 32-142).

History of Private Activity Bonds: Prior to 1986, many states and municipalities used tax-exempt private activity bonds for a variety of purposes beyond the typical uses for highways and government buildings. Revenue bonds were issued in large quantities to finance home mortgage loans, industrial development loans, resources recovery projects, student loans, sports facilities, etc. As the volume of tax-exempt bond issuance increased dramatically, the federal government became increasingly uncomfortable over the volume of tax revenue being lost and Congress addressed the issue in the Tax Reform Act of 1986 (TRA 1986). Connecticut’s Private Activity Bond Commission (PABC) was set up in response to TRA 1986.

TRA 1986 imposed an annual cap (**see Unified Volume Cap, below**) on the value of tax-exempt private activity bonds that may be issued in each state and provided the following list of qualified private activities for which bonds could be issued:

- Sewage Disposal (Exempt Facility)
- Water Facilities (Exempt Facility)
- Solid Waste Disposal (Exempt Facility)
- Local District Heating and Cooling (Exempt Facility)
- Qualified Redevelopment Bonds (Exempt Facility)
- Qualified 501(c)(3) Corporation
- Manufacturing

TRA 1986 also restricted the states to committing a maximum of \$10 million annually for manufacturing. States were permitted to commit up to the amount of the state’s volume cap limitation on exempt facilities.

Unified Volume Cap: Federal tax law limits the volume of tax-exempt state private activity bonds each calendar year. The TRA 1986 cap was the greater of \$50 per capita or \$150 million. Congress subsequently increased this amount as shown in the table below. After 2002, the volume cap will increase by an inflationary adjustment.

Private Activity Bond Unified Volume Cap			
<u>Calendar Year</u>	<u>Per Capita Amount</u>	<u>Minimum Amount</u>	<u>Connecticut's Cap</u>
2000	\$50.00	\$150.0 million	\$164.1 million
2001	\$62.50	\$187.5 million	\$212.8 million
2002	\$75.00	\$225.0 million	\$256.9 million
2003	\$75.00	\$225.0 million	\$259.5 million
Source: Federal Funds Information for States, January 10, 2003			

Private Activity Bond Authorization and Allocation: The process through which private activity bonds are authorized and allocated is different than the process followed for other types of bonds, like General Obligation (GO) bonds or Special Tax Obligation (STO) bonds. PA 01-7 (June Special Session) amended CGS Sec. 32-141 to provide the following statutory allocation formula:

Statutory Percentages for Private Activity Bond Allocations		
<u>Agency</u>	<u>Calendar 2001</u>	<u>Calendar 2002 & after</u>
Connecticut Housing Finance Authority	60%	60.0%
Connecticut Development Authority	15%	12.5%
Municipalities, CT Higher Educational Supplemental Loan Authority & contingencies	<u>25%</u>	<u>27.5%</u>
Total	100%	100%

PA 01-7 (June Special Session) eliminates the State Private Activity Bond Commission and transfers its authority over these bonds to the State Bond Commission. This means that when the General Assembly is not in session, the Bond Commission is able to reallocate bonding authority for that year if it determines doing so is in the state's best interests.

7. Special Topics in Capital Budgeting

A. Statutory Debt Limit

CGS Section 3-21 imposes a ceiling on the amount of General Fund-supported debt the Legislature may authorize. The limit is 1.6 times net General Fund tax receipts projected by the Finance, Revenue and Bonding Committee for the fiscal year in which the bonds are authorized. The statute prohibits the General Assembly from authorizing any additional General Fund-supported debt, except what is required to meet cash flow needs or emergencies resulting from natural disasters, when the aggregate amount of outstanding debt and authorized but unissued debt exceed this amount. Certain types of debt are excluded from the statutory debt limit calculation, including debts incurred for federally reimbursable public works projects, assets in debt retirement funds, and debt incurred in anticipation of revenue and some other purposes. (Examples of excluded debt are tax incremental financing bonds, Special Transportation GO bonds, Bradley Airport revenue bonds, Clean Water Fund revenue bonds, and Connecticut Unemployment revenue bonds.)

The statute requires the Office of the State Treasurer to certify that any bill authorizing bonds does not violate the debt limit, before the General Assembly may vote on the bill. A similar certification is required before the state Bond Commission can authorize any new bonds to be issued. CGS Sec. 2-27b(b) requires the State Treasurer to compute the state's aggregate bonded indebtedness each January 1 and July 1 and certify this to the governor and General Assembly. If the amount reaches 90% of the ceiling amount, the governor must review each bond act for which no obligations have yet been incurred and recommend to the General Assembly priorities for repealing these authorizations.

The Office of the State Treasurer issued a Certificate of State Indebtedness for the bond bills passed during the May 2002 Special Session. It should be noted that the Office of Policy and Management provided the budgeted tax revenue estimates that formed the basis for calculating the state's debt limit

because the legislature did not adopt revised FY 03 revenue estimates. The certificate stated that as of 8/12/02:

FY 03 limit on GO bonds (1.6 x FY 03 revenue estimates)	\$13,116,000,000
FY 03 net GO bond indebtedness (includes 2002 bond bills)	\$11,805,771,114
Debt incurring margin for proposed new bond authorizations	\$1,310,228,886
FY 03 net indebtedness as a percent of debt limit	90.0%
Capacity remaining before 90% limit	(\$1,371,114)
 FY 04 limit on GO bonds (1.6 x FY 04 revenue estimates*)	 \$13,116,000,000
FY 04 net GO bond indebtedness (includes 2002 bond bills)	\$11,796,825,782
Debt incurring margin for proposed new bond authorizations	\$1,319,174,218
FY 04 net indebtedness as a percent of debt limit	89.9%
Capacity remaining before 90% limit	\$7,574,218

*Note that the FY 04 debt limit calculation uses the same tax revenue estimate as FY 03.

Table 5 (page 46) presents data on the state's debt limitation between FY 82 and FY 04.

B. Redevelopment Projects in Hartford, East Hartford, Bridgeport, New Haven and Torrington

Hartford

The Legislature has provided \$552.4 million (\$437.9 million in GO bonds and \$114.5 million in cash) for redevelopment projects in Hartford called the "Six Pillars":

Hartford Redevelopment Projects		
<u>Project</u>	<u>Funding</u>	<u>Legislation</u>
Adriaen's Landing		
Convention Center, including parking [1]	\$190.0 million	PA 00-140
Adriaen's Landing [2]	\$188.3 million	PA 00-140 and SA 01-1 (JSS)
Civic Center [4]	\$15.0 million	PA 98-179
Riverfront Recapture [4]		
Riverfront infrastructure development	\$25.0 million	PA 98-179
Riverfront Recapture park system [3]	\$3.9 million	SA 01-2 (JSS)
Downtown Parking [4]	\$15.0 million	PA 98-179
Housing and Demolition [4]		
Housing rehabilitation and new construction projects	\$35.0 million	PA 98-179
Demolition and redevelopment projects	\$25.0 million	PA 98-179
Capitol City Community-Technical College [4]	<u>\$55.2 million</u>	see footnote [5]
Total	\$552.4 million	

[1] \$187 million in 20-year GO bonds is provided through OPM and \$3 million is provided through DECD. The bonds may not be issued after 6/30/05.

[2] \$73.8 million in 30-year GO bonds is provided through OPM; \$100 million is cash from the FY 99 budget surplus (originally provided by PA 98-1 (DSS) for the New England Patriots stadium) and \$14.5 million is cash from the FY 01 budget surplus.

[3] The project includes Riverside Park improvements, access road construction, boat launch embayment and Riverwalk North construction.

Hartford Redevelopment Projects

[4] The project is funded with 20-year GO bonds.

[5] \$30 million is provided by PA 98-179; \$22.0 million is provided by SA 97-1, (J5 SS) and SA 98-9; \$3.2 million is provided by PA 00-167

Legislative History of Funding for Hartford Redevelopment Projects

PA 98-179, "An Act Concerning Redevelopment Projects in Hartford, Bridgeport and New Haven" described the boundaries of the Capitol City Economic Development District and authorized a total of \$300 million in General Obligation (GO) bonds for projects located within the District. Of this total, \$270 million was authorized through the Department of Economic and Community Development (DECD) for a convention center, redevelopment of the Civic Center, riverfront infrastructure, parking projects, and demolition and redevelopment projects. An authorization of \$30 million was made to the Regional Community-Technical College System (RCTCS) for a downtown higher education center.

SA 98-9, "An Act Concerning the Authorization of Bonds of the State for Capital Improvements and Other Purposes," authorized an additional \$22 million in FY 99 to RCTCS for the Capitol City Community-Technical College.

PA 98-1 (December Special Session), "An Act Authorizing the Issuance of General Obligation Bonds of the State to Finance an Open-air Stadium Project and Related Infrastructure Improvements in Hartford, Connecticut and a Training Facility in the State and the Execution of an Agreement between the State and the National Football League New England Patriots," authorized \$250 million plus inflation (\$274.4 million) in GO bonds and appropriated \$100 million from the FY 99 budget surplus for the Patriots stadium. PA 99-241 repealed the bond authorization and redirected the \$100 million from the FY 99 budget surplus to fund the sportsplex.

PA 99-241, "An Act Increasing Certain Bond Authorizations for Capital Improvements, the Capital City Economic Development Authority, and the Convention Center and Sportsplex in Hartford and Associated Development Activities," increased the bond authorization for the convention center, and provided funding for a sportsplex and parking associated with these projects.

PA 00-140, "An Act Implementing The Master Development Plan For The Adriaen's Landing Project And The Stadium At Rentschler Field Project," makes changes to the Adriaen's Landing project in Hartford and provides for construction of a football stadium in East Hartford. The act permits the \$100 million in cash previously designated for a sportsplex to be used at the Adriaen's Landing project. It also makes changes to prior bond authorizations for \$190 million in 20-year bonds and \$165 in 30-year bonds, but does not authorize additional bonds.

SA 01-1 (June Special Session) provides \$14.5 million from the FY 01 budget surplus for costs associated with the Adriaen's Landing project. This includes \$8 million to acquire the Hartford Times Building and \$6.5 million to refurbish office space at Constitution Plaza to accommodate the relocation of Hartford city offices.

SA 01-2 (June Special Session) provides \$3.9 million for the Riverfront Recapture park system. This includes improvements to Riverside Park, access road construction, boat launch embayment and Riverwalk North construction.

East Hartford

PA 00-140, "An Act Implementing The Master Development Plan For The Adriaen's Landing Project And The Stadium At Rentschler Field Project," provides \$91.2 million in 30-year GO bonds for construction of a football stadium at Rentschler Field. The state will own and operate the stadium.

SA 01-2 (June Special Session) changes the language of three GO bond authorizations that were previously made to the Science Museum in East Hartford to permit the funds to be used by the City of East Hartford for road and infrastructure improvements associated with the Rentschler Field project. The total amount authorized is \$9.5 million.

Bridgeport

PA 02-2 (May 9 Special Session) authorizes \$10 million in GO bonds to provide a grant-in-aid to Bridgeport through the Department of Economic and Community Development. The grant is intended to fund remediation of the waterfront, including any predevelopment costs.

PA 98-179, "An Act Concerning Redevelopment Projects in Hartford, Bridgeport and New Haven," allows the Connecticut Development Authority (CDA) to issue up to \$120 million using the tax incremental financing mechanism for the Steel Point Project. PA 02-2 (May 9 Special Session) repealed this authorization.

New Haven

SA 01-2 (June Special Session) authorizes \$30 million in GO bond to provide a grant-in-aid to New Haven through the Department of Economic and Community Development. The grant is intended to fund economic development projects, including improvements to the downtown and a biotechnology corridor, and related development purposes. In addition, the act authorizes a \$5 million grant-in-aid for renovations and improvements to Tweed New Haven Airport.

PA 98-179, "An Act Concerning Redevelopment Projects in Hartford, Bridgeport and New Haven," allowed CDA to issue up to \$28 million in bonds using the tax incremental financing mechanism for the Long Wharf Project. SA 01-2 (June Special Session) repealed this authorization.

Torrington

SA 01-2 (June Special Session) permits the City of Torrington to receive up to \$30 million in financial assistance from existing programs administered by the Department of Economic and Community Development. The money is available between 7/1/01 and 6/30/03 and is intended to fund restoration and improvements to property in the City of Torrington. It will be provided through the Downtown Torrington Redevelopment LLC.

C. Tax Incremental Financing (TIF) Program

The Tax Incremental Financing (TIF) Program provides a mechanism for financing capital projects that generate enough incremental revenue to pay debt service on the bonds. The Connecticut Development Authority (CDA) administers the TIF program.

TIF Approval Process: When CDA receives an application, it must make a preliminary determination about the project's eligibility. CDA can hire financial advisers and other experts to assess the application and the supporting documentation, including whether the project will generate enough incremental tax revenue to repay the bonds.

CDA must then prepare a revenue impact assessment estimating the taxes, other revenues, and the economic benefits the project will generate. The assessment must estimate the tax revenues the state and town will give up to fund the project.

Before submitting the project to its board, CDA must notify legislative leaders and the chairpersons and ranking members of the Commerce and Finance, Revenue and Bonding Committees. The notice must include information about the project, including the incremental tax estimates. Any of these legislators can ask CDA's board to defer making a decision for 30 days.

The board, after reviewing the application and the supporting information, can approve the project and the financing plan. The board must submit the application to the State Bond Commission for final approval.

PA 01-210 extends the sunset date for the TIF Program from 7/1/01 to 7/1/05.

The table below lists the projects that have been funded under the TIF program, the total cost of each project and the portion provided with TIF bonds.

Tax Incremental Financing Projects			
Project	Date	Total Cost	TIF Bonds
Meadows Music Center (Hartford)	1994	\$26.5 million	\$9.885 million
Norwich Baseball Stadium	1994	\$ 9.8 million	\$1.545 million
Oakdale Theatre (Wallingford)	1995	\$20.3 million	\$9.900 million
Lake Compounce Theme Park (Bristol)	1997	\$40.0 million	\$18.00 million

D. Statutory Limitation Financial Assistance for Business Projects funded with Bond Funds

CGS Sec. 32-462 caps the amount of financial assistance that may be provided with bond funds for a business project, without specific legislative approval, at \$10 million within a 2-year period. The statute excludes housing projects and applies only to funding provided through the Department of Economic and Community Development, the Connecticut Development Authority and Connecticut Innovations, Inc. PA 01-7 (JSS) raises the cap for commercial biotechnology projects to \$20 million within a 2-year period.

E. Capital Equipment Purchase Fund

The Capital Equipment Purchase Fund (CEPF) was established in 1987. The state's practice at that time was for each agency to enter into lease agreements for certain types of capital equipment (such as computers) with private companies. The cost of these agreements took into account the private firm's taxable interest rate, which was substantially higher than the state's tax-exempt interest rate on bonds. An analysis of other alternatives determined that the state would be better off financially if it issued bonds to purchase such equipment outright rather than continue to lease.

Initially CEPF funding was used only for those types of capital equipment that were financed through lease agreements. However, use of the CEPF was expanded dramatically from FY 92 to FY 94 to include all capital equipment. Most executive branch agencies now use the CEPF to purchase all equipment with a life span of at least five years (PA 00-167.) The state funds these purchases by issuing GO bonds with maturities of up to five years. The CEPF is authorized by CGS Sec. 4a-9 and administered by the Office of Policy and Management.

[Table 6 \(page 47\)](#) shows the distribution of CEPF funds by agency between FY 98 and FY 02.

F. Urban Action Program

Urban Action grants-in-aid are intended to provide funding to severely distressed municipalities and urban communities to alleviate excessively deteriorated neighborhoods and community revitalization areas with population out-migration. Under federal regulations, distressed municipalities are those which meet three of six minimum standards of physical and economic distress: 1) age of housing; 2) per capita income, 3) population lag/decline, 4) unemployment, 5) job lag/decline, and 6) poverty. HUD revises minimum requirements for each of these standards periodically. CGS Sec. 4-66c(c) requires eligible municipalities to be one of the following: (1) an economically distressed town as defined in CGS Sec. 32-9p, (2) an

urban center in any plan adopted by the General Assembly pursuant to CGS Sec. 16a-30 or a public investment community as defined by CGS Sec. 7-545(a)(9), or (3) a town with a project which the State Bond Commission determines will help meet the goals set forth in CGS Sec. 4-66b.

The following 54 towns are eligible for Urban Action grants in FY 03:

Towns eligible for Urban Action Grants-in-Aid during FY 03				
Ansonia	East Hartford	Meriden	Plainville	Thomaston
Ashford	East Haven	Middletown	Plymouth	Thompson
Beacon Falls	East Windsor	Milford	Portland	Torrington
Bloomfield	Enfield	Montville	Putnam	Vernon
Bridgeport	Griswold	Naugatuck	Seymour	Voluntown
Bristol	Groton	New Britain	Shelton	Waterbury
Canterbury	Hamden	New Haven	Sprague	West Hartford
Colchester	Hampton	New London	Stafford	West Haven
Danbury	Hartford	Norwalk	Stamford	Winchester
Derby	Killingly	Norwich	Sterling	Windham
East Hampton	Manchester	Plainfield	Stratford	

Other towns which do not qualify for Urban Action grants-in-aid because they are not distressed municipalities, urban centers or public investment communities, may receive Urban Action funding for a project because the State Bond Commission determines the project will help meet the goals set forth in CGS Sec. 4-66b.

CGS Sec. 4-66c(d) indicates that economic development projects eligible for Urban Action Grant funding may include but are not limited to (1) the construction or rehabilitation of commercial, industrial and mixed use structures, and (2) the construction, reconstruction or repair of roads, access ways and other site improvements. CGS Sec. 4-66c(b) provides the bond authorizations for Urban Action Grants to the following agencies:

Agency	Purpose
Department of Economic and Community Development	Community development projects
Department of Economic and Community Development	Housing projects
Department of Transportation	Urban mass transit
Department of Environmental Protection	Recreation development and solid waste disposal projects
Department of Social Services	Child day care projects, elderly centers, shelter facilities for victims of domestic violence, emergency shelters and related facilities for the homeless, multipurpose human resource centers and food distribution facilities
Office of Policy and Management	<ol style="list-style-type: none"> 1. Grants-in-aid to municipalities for a pilot demonstration program to leverage private contribution for redevelopment of designated historic preservation areas 2. Grants-in-aid for urban development projects including economic and community development, transportation, environmental protection, public safety, children and families and social services projects and programs

G. Small Town Economic Assistance Program (STEAP)

PA 01-7 (June Special Session) establishes STEAP under the Office of Policy and Management. The program is to provide grants-in-aid to towns that: (a) do not meet the Urban Action Program criteria for being economically distressed, having an urban center or being a public investment community, and (b) have a population under 30,000. Towns may receive up to \$500,000 in any one fiscal year. The grants-in-aid may be used for the same purposes as those provided under the Urban Action Program. The program is funded with \$20 million in FY 03.

The following 109 towns are eligible for STEAP grants in FY 03:

Towns eligible for STEAP Grants-in-Aid during FY 03				
Andover	Cornwall	Kent	North Canaan	South Windsor
Avon	Coventry	Killingworth	North Haven	Stonington
Barkhamsted	Cromwell	Lebanon	North Stonington	Suffield
Berlin	Darien	Ledyard	Old Lyme	Tolland
Bethany	Deep River	Lisbon	Old Saybrook	Union
Bethel	Durham	Litchfield	Orange	Warren
Bethlehem	Eastford	Lyme	Oxford	Washington
Bolton	East Granby	Madison	Pomfret	Waterford
Bozrah	East Haddam	Mansfield	Preston	Watertown
Branford	East Lyme	Marlborough	Prospect	Westbrook
Bridgewater	Easton	Middlebury	Redding	Weston
Brookfield	Ellington	Middlefield	Ridgefield	Westport
Brooklyn	Essex	Monroe	Rocky Hill	Wethersfield
Burlington	Farmington	Morris	Roxbury	Willington
Canaan	Franklin	New Canaan	Salem	Wilton
Canton	Goshen	New Fairfield	Salisbury	Windsor
Chaplin	Granby	New Hartford	Scotland	Windsor Locks
Cheshire	Guilford	Newington	Sharon	Wolcott
Chester	Haddam	New Milford	Sherman	Woodbridge
Clinton	Hartland	Newtown	Simsbury	Woodbury
Colebrook	Harwinton	Norfolk	Somers	Woodstock
Columbia	Hebron	North Branford	Southbury	

H. Grants-in-Aid for Towns Ineligible for Urban Action or STEAP Grants-in-Aid

PA 01-7 (June Special Session) permits towns that do not qualify for either the Urban Action Program or the Small Town Economic Assistance Program (STEAP) to apply for grants-in-aid under the provisions of the Urban Action Program during FY 03. The grant amount is limited to \$500,000 in any one fiscal year.

The following 6 towns are eligible for grants-in-aid under this provision in FY 03:

Non-Urban Act Towns eligible for \$500,000 Urban Act Grants in FY 03		
Fairfield	Greenwich	Trumbull
Glastonbury	Southington	Wallingford

I. Local Capital Improvement Program (LoCIP)

LoCIP is an entitlement program for municipalities that provides General Obligation bond funds for the following eligible projects, as defined in CGS Sec. 7-536(a)(4):

1. Road construction, renovation, repair or resurfacing
2. Sidewalk and pavement improvement
3. Construction, renovation, enlargement or repair of sewage treatment plants and sanitary or storm, water or sewer lines, including separation of lines

4. Public building construction other than schools, including renovation, repair, code compliance, energy conservation and fire safety projects
5. Construction, renovation, enlargement or repair of dams, bridges and flood control projects (PA 00-167 added flood control projects.)
6. Construction, renovation, enlargement or repair of water treatment or filtration plants and water mains
7. Construction, renovation or enlargement of solid waste facilities
8. Improvements to public parks
9. The preparation and revision of local capital improvement plans projected for a period of not less than five years and so prepared so as to show the general description, need and estimated cost of each individual capital improvement
10. Improvements to emergency communications systems
11. Public housing projects, including renovations and improvements and energy conservation and the development of additional housing
12. Renovations to or construction of veterans' memorial monuments
13. Improvements to information technology systems to manage the century date change effect (PA 99-66)
14. Thermal imaging systems (PA 00-167)
15. Bulky waste and landfill projects (PA 00-167)
16. Automatic external defibrillators (PA 02-5 (MSS))

Distributions of LoCIP funds to municipalities are calculated based on the following statutory formula (CGS Sec. 7-536(c)):

Statutory Formula for the Distribution of LoCIP Funds	
Road miles	30%
Population density	25%
Adjusted equalized net grand list per capita	25%
Ratio of town population to state population	20%
Total	100%

Annual distributions of new LoCIP funds are deposited to municipal accounts administered by the Office of Policy and Management (OPM) in March of each year. Towns may choose to expend the funds on a series of smaller projects or allow them to accumulate over a period of time for one large project. The statutes require towns to use LoCIP funds within 7 years of deposit but OPM may waive this provision if a written request is received from the town (PA 00-167.)

Towns begin the process of accessing their LoCIP funds by submitting a proposal to OPM describing a project and certifying that it is part of the town's capital improvement plan. OPM is required by statute to respond within 45 days of the submission. If approval is granted, the town may proceed to carry out the project. Because LoCIP is a reimbursement program, towns must first incur the expense for a project and/or disburse local funds before reimbursement can be requested. Reimbursement may be made in one lump sum for a smaller project or in a series of payments as successive stages of a larger project is completed.

Please [see OFA's website for a town-by-town listing LoCIP funding and projects](#). This list is periodically updated with information provided by OPM throughout the fiscal year.

J. School Construction Grants-in-Aid to Municipalities

The state's participation in assisting local school districts in financing elementary and secondary school construction projects dates back to 1945. The regular session of the General Assembly enacted the first bill that provided school construction aid based on a formula of \$150 per student or 1/3 of the total project cost (excluding site acquisition costs). The maximum allowable grant was capped at \$50,000. During the 1950's and 1960's the formula was periodically increased by increasing the per pupil grant and the eligible and capped expenditure limits. The program was also expanded to include occupational training centers, vocational-agriculture centers, and regional school districts as projects eligible to receive grants.

PA 78-352 altered the grant formula from a fixed percentage (50%) of eligible project costs to a variable percentage ranging from 40% to 80%. Each town's percentage is based on a town's property wealth as determined by its adjusted equalized net grand list per capita. PA 89-355 changed the percentage sliding scale from 40% to 80%, to 20% to 80% for all projects authorized after June 30, 1990.

The General Assembly has funded school construction grants-in-aid to municipalities with both appropriations from the General Fund and GO bond authorizations. From the program's inception in 1945 until FY 59 the grants were paid through appropriations from the General Fund. In FY 60 the financing mechanism was changed to GO bond authorizations, which continued until FY 77. Between FY 78 and FY 88, the funding was again done through appropriations from the General Fund. Then, as a result of the state's financial troubles in the late 1980's and early 1990's, the method of funding shifted back to bond authorizations. Beginning in FY 89 the principal portion of the grants was paid with bond funds, followed by the interest portion in FY 91.

Financing interest payments using bond proceeds created two problems for the state. First, paying interest with borrowed funds caused the state to pay interest costs twice: once to reimburse towns for interest paid on local bonds and a second time on the bonds it issued to pay grants to towns. Second, it created a potential conflict with the federal tax rules imposed by the Internal Revenue Service (IRS) on the use of tax-exempt bond proceeds.

Under IRS rules, interest payments made with tax-exempt bond proceeds are treated differently from principal payments made with the same funds. The IRS classifies interest payments as non-related working capital expenses, which are subject to specific federal tax regulations regarding the financing of working capital. These include: (1) investment restrictions on the bond proceeds; (2) separate accounting procedures; (3) yield restrictions on the General Fund or the rebate of arbitrage if the proceeds earmarked for working capital expenses are not spent by the state within six months of issuance; and (4) repayment of the tax-exempt bonds within two years after the date of issuance. The potential problem for the state arose from the fact that the grant payments for principal and interest were made from the same account, which made it difficult for the Office of the State Treasurer to ensure that the state was complying with federal tax regulations.

In 1997 the state addressed these two issues by passing two public acts. PA 97-265 remedied the potential conflict with federal tax rules by separating the state subsidy for interest on school construction projects from the overall school construction grant program. PA 97-11 (June 18 Special Session) remedied the problem of paying interest in the interest grant. Under the old system, the municipality bonded the entire construction cost of the school and the state reimbursed the municipality each year for the state's portion of the debt service (principal and interest). Under the new system, the state and municipalities are required to bond separately for their respective shares of the construction costs of each new school building project. The new system applies to projects authorized by the General Assembly on or after July 1, 1996, or for which a project application is submitted on or after July 1, 1997.

PA 02-5 (May 9 Special Session) made a number of changes intended to control state costs for the school construction grant-in-aid program. Starting 7/1/02, projects must receive local funding authorization before they can be included in the Department of Education's school construction grant list. It also caps at \$1 billion the grant lists submitted to the Legislature in December 2003 and December 2004. The act also reduced from 100% to 95% the reimbursement rate for new vocational-agricultural centers, cooperative regional education facilities and interdistrict magnet schools, beginning 7/1/02.

Figure 2 (page 48) shows school construction bond authorizations for school construction, renovations, additions and magnet schools, from FY 92 to FY 03. Please note that budget surplus funding for school construction in FY 99, FY 00, FY 01 and FY 02 is not included. **Figure 3 (page 49)** shows school construction bonding as a percent of net General Obligation bonding from FY 92 to FY 03. Please note that: (1) FY 89 through FY 91 are not included in the graphs because school construction grants-in-aid were funded partially through appropriations and partially through GO bond authorizations in these years, and (2) budget surplus funding for school construction in FY 99, FY 00, FY 01 and FY 02 is not included.

Budget Surplus Funding for School Construction: In addition to the bond authorizations shown in Figures 2 and 3, the General Assembly also funded school construction grants-in-aid from prior year budget

surplus in FY 99, FY 00, FY 01 and FY 02. The table below summarizes the amount of GO bond authorizations and budget surplus funds provided for school construction from FY 99 to FY 03. It also shows school construction grant payments to towns.

Funding Sources for School Construction Grants-in-Aid (in Millions)						
	<u>GO Bond Authorizations</u>		<u>Budget Surplus Funds</u>	<u>Available from prior year</u>	<u>Total Available from All Sources</u>	<u>Grant Payments to Towns</u>
	<u>Principal</u>	<u>Interest</u>				
FY 99	\$236.8	\$63.0	\$55.0	\$3.5	\$358.3	\$266.7
FY 00	370.8	6.0	296.6	91.6	765.0	401.2
FY 01	393.0	17.0	100.0	363.8	873.8	391.8
FY 02	143.0	0.0	50.0	482.0	675.0	421.8
FY 03	380.0	50.0	0.0	195.6	625.6	601.0 (est)

Table 7 (page 50) shows school construction grants-in-aid provided by the state to towns, occupational training centers, vocational-agriculture centers, and regional school districts between FY 95 and FY 02. The figures for each town include: (1) reimbursements for principal and interest made under the funding system that existed prior to July 1, 1997, and (2) payments under the funding system used after July 1, 1997.

K. Educational Technology Infrastructure Grants-in-Aid

The Educational Technology Infrastructure Grant Program is authorized under CGS Sec. 10-4h and administered by the Department of Education. It was established in 1986 however no financing was provided until FY 97. The table below shows funding provided for the program:

Educational Technology Infrastructure Grant Funding	
<u>Fiscal Year</u>	<u>Funding</u>
FY 97	\$2.4 million GO bonds
FY 98	\$8.0 million GO bonds
FY 99	\$10.0 million GO bonds [1]
FY 00	\$9.5 million from budget surplus [2]
FY 01	\$9.9 million from budget surplus
FY 02	\$4.5 million GO bonds

[1] At least \$3 million of the total was designated for Bridgeport, Hartford and New Haven.
[2] At least \$4 million of the total was designated for Bridgeport, Hartford, New Haven and Waterbury.

The program is available to local and regional school districts for the following:

- Wiring and connectivity
- Purchase or leasing of computers
- Interactive software
- Purchase and installation of software filters

Grant applications are evaluated based on the following criteria:

- The nature, description and systems design of the project
- The results of an assessment demonstrating the need for such a project in the community
- The degree of planning to use educational technology equipment and hardware, including the extent to which the school buildings will be capable of being linked to other schools, libraries, institutions of higher education and information networks and provisions for training of staff
- The extent to which the applicant in the development of a plan, consulted with individuals or businesses that have expertise in technology and information systems
- The relative wealth of the applicant

Table 8 (page 53) shows bonding provided to educational institutions from FY 95 to FY 01.

L. Flexible Housing Program at the Department of Economic and Community Development

PA 01-7 (June Special Session) created the Flexible Housing Program within the Department of Economic and Community Development (DECD). The legislation was intended to provide DECD with broad authority to fund housing and related facilities by permitting the agency to:

1. Acquire, construct, rehabilitate, repair and maintain residential or mixed-use structures (mixed-use structures combine residential housing and retail space),
2. Acquire, construct, rehabilitate, repair and maintain related infrastructure, facilities and amenities incidental and pertinent to the provision of affordable housing and intended primarily to serve the residents of the affordable housing project that may include, but not be limited to, a community room, laundry, day care space, computer center, management office or playground, or
3. Demolish, renovate or redevelop vacant buildings or related infrastructure.

Prior to PA 01-7 (JSS), DECD was not permitted to provide funding for: (a) loan guarantees to housing projects, (b) mixed-use structures or (c) some of the amenities that make affordable housing successful. The act permits DECD to provide financial assistance in the form of loans, loan guarantees, deferred loans or any combination thereof, for these purposes. The act also provides new language that allows DECD to take the role of a partial or "gap" financier. (A gap financier provides a minority share of a project's funding with a secondary security interest in the property. Previous gap financing statutes were unworkable because they stipulated that the state must hold the primary security interest in any project using state funds, even though the state did not provide the majority of funding.) The Flexible Housing Program is funded from bond authorizations made to DECD specifically for housing purposes. The agency determines which financing mechanism is best suited to the proposed activity when the project application is received.

M. Bond Sales

The Office of the State Treasurer is responsible for making bond sales. Sales occur several times per year and are based on cash requirements for bond-funded projects, rather than bond allocations. For example, the Bond Commission may approve the allocation of funds for construction of an office building that will require 5 years to build. The entire allocation is not needed immediately because work on the building is done in stages: (1) the architect's design and engineer's specifications, (2) site preparation, (3) construction, and (4) interior fit-out of furniture and equipment needed by the future tenant. Payment for this work is also made in stages, so money from bond sales is needed throughout the 5-year period. The Treasurer's Office must factor the cash requirements for this project (and all other bond-funded projects) into its plans for the amount of bonds to sell.

[Table 9 \(page 57\)](#) shows state bond issuance between FY 82 and FY 03 (through November 2002.)

N. Bond Ratings

All state bond issues are assigned a rating by each of the three private companies that are generally accepted as the most influential in this area: Moody's Investors Service, Inc., Standard & Poor's Service and Fitch IBCA, Inc. The ratings reflect the views of the respective rating agency on a number of factors, including the state's economic outlook, current financial position, the impact of recently enacted legislative changes, the management capacity of state government and debt issuance and authorization.

[Table 10 \(page 61\)](#) shows state bond ratings from FY 82 to FY 03 (through November 2002.)

O. Debt Service

This is the interest and principal paid by the State on the bond funds it borrowed. Bonds are usually financed over a term of 20 years. The State makes interest payments every 6 months after the bonds are issued and a portion of the principal is paid every 12 months.

Table 11 (page 62) shows General Fund and Transportation Fund debt service expenditures as a percent of total budget expenditures between FY 82 and FY 03.

P. Total Debt

Table 12 (page 64) shows total state debt as of the end of each fiscal year from FY 81 to FY 02, and as of 12/31/02. The data is organized by the revenue source pledged to repay the debt service on the bonds. The table below shows where descriptions of the types of debt listed in Table 12 can be found in this book.

Information Key to Table 12	
Type of Debt	Book Section describing the Type of Debt
General Fund Debt	
GO – tax-supported bonds	Section 6A
GO – revenue-supported bonds	[1]
Economic Recovery Notes	[2]
UConn 2000 bonds	Section 6A
CDA Incremental Financing bonds	Section 7C (tax incremental financing)
Transportation Fund Debt	
GO – Transportation bonds	[3]
Special Tax Obligation bonds (STO)	Section 6B
Other Debt	
Revenue bonds	[4]
Unemployment compensation bonds	Section 6C, subsection 3
CDA governmental lease revenue bonds	[5]
CHEFA Child Care bonds	Section 6F, subsection 1d
Second Injury Fund revenue bonds	Section 6C, subsection 4

[1] Like tax-supported GO bonds, revenue-supported GO bonds are backed by the full faith and credit of the state, but debt service payments are made from a revenue stream associated with the asset. For example, the revenue stream from student fees can be pledged to finance dormitory construction at state higher education institutions.

[2] Economic recovery Notes (ERNs) are a type of General Obligation debt that has been used to cover General Fund budget deficits after the close of the fiscal year. They were first used in FY 92 when a total of \$965.71 million was issued to finance the cumulative FY 91 General Fund deficit. These notes were paid off in FY 98. ERNs were again used in FY 03 when a total of \$219.2 million was issued to finance the FY 02 General Fund deficit.

[3] Prior to the establishment of the Special Transportation Fund (STF) in 1984, transportation infrastructure improvements were financed through General Obligation bond issues. Under current law, debt service on the GO transportation bonds is paid from STF resources provided that there is sufficient funding first to pay all STO debt service.

[4] Revenue debt includes bonds issued for the Clean Water Fund (beginning in FY 86), improvements at Bradley International Airport (beginning in FY 92) and construction of a parking garage at Bradley International Airport (beginning in FY 00). Clean Water Fund revenue bonds are described in Section 6D, Bradley International Airport bonds are described in Section 6C, subsection 1, and Bradley International Airport Parking Garage bonds are described in Section 6C, subsection 2.

[5] In December 1994, \$9.3 million in revenue bonds was issued by the Connecticut Development Authority (CDA) to fund the New Britain Government Center. Debt service on the bonds is paid from lease payments made by several state agencies that occupy space in the building.

Q. Per Capita and Personal Income Debt Rankings by State

Industry sources such as Moody's Investors Service, Inc. publish annual rankings of various debt ratios for the fifty states. Two such statistics compare each state's level of debt that is supported by state tax revenues on a (1) per capita basis, and (2) personal income basis. As shown in the table below, Connecticut ranks highest in the nation on a per capita and third highest on a personal income basis.

Per Capita and Personal Income Comparisons of Debt Supported by State Tax Revenues [1] (based on 2000 population data and 2000 personal income data)

Rank	State	Net Tax-Supported Debt per Capita	Rank	State	Net Tax-Supported Debt as % of Personal Income
1	Massachusetts	\$3,267	1	Hawaii	10.4%
2	Connecticut	\$3,240	2	Massachusetts	8.6%
3	Hawaii	\$2,936	3	Connecticut	8.0%
4	New Jersey	\$2,066	4	New York	5.9%
5	New York	\$2,045	5	New Jersey	5.6%

[1] Net tax supported debt takes into account all debt serviced by tax revenues of the state, including General Fund debt and Transportation Fund debt. The net figure is reached by deducting any self-supporting debt, debt serviced by another unit of government, sinking funds and short-term operating debt.

Source: Moody's Investors Service, Inc., May 2002

Another method of comparison combines state and municipal debt levels. As shown in the table below, Connecticut ranked fourth highest in per capita levels of state and municipal debt. However, when compared based on personal income levels, Connecticut is ranked seventeenth.

Per Capita and Personal Income Comparisons of State and Local Debt (based on 1999 data)

Rank	State	State and Local Debt per Capita	Rank	State	State and Local Debt per Capita as % of Personal Income
1	Alaska	\$11,991	1	Alaska	43.3%
2	New York	\$9,420	3	New York	29.3%
3	Massachusetts	\$8,149	12	Massachusetts	24.5%
4	Nevada	\$6,800	17	Nevada	23.7%
5	Connecticut	\$6,776	5	Connecticut	18.1%

Source: CQ's State Fact Finder, 2002

The difference between the two methods stems from the fact that many states bond for items like school construction on a local level (e.g. California) rather than at the state level (e.g. Connecticut). Since such items can account for a large percentage of total capital expenditures (school construction accounted for approximately 27% of Connecticut's total bond allocations in FY 02), a comparison that includes both state and local debt provides a more accurate picture.

Appendix A: The “Special Act” Bond Bill

The internal structure of the biennial “Special Act” bond bill is very unique. It consists of the following 3 main subdivisions (PA 99-242 is used as an example. It is classified as a public act rather than a special act because two sections that amend statutory language were added to the bill.):

1. Sections 1-19: First Year of Biennium - FY 1998-99
2. Sections 20-38: Second Year of Biennium - FY 1999-2000
3. Sections 39-89: Language Changes and Cancellations

The first two subdivisions have the same section-by-section structure but are effective for different fiscal years. The table below describes the organization:

FY 1999-00	FY 2000-01	Description
Section 1	Section 20	Standardized language that indicates the total amount of new bonds authorized for state-owned facilities in the following section
Section 2	Section 21	Itemized breakdown of new bond authorizations showing (1) the state agency receiving the funds, (2) a description of the purpose for which the funds are to be spent, and (3) the amount of bond funds designated for this purpose. Example: For the Department of Public Works: Infrastructure repairs and improvements, including fire, safety and compliance with the Americans with Disabilities Act, improvements to state-owned buildings and grounds, including energy conservation and preservation of unoccupied buildings, not exceeding \$10,000,000;
Sections 3-7	Sections 22-26	Standardized bond authorization language
Sections 8-11	Sections 27-30	Lump-sum authorization for all housing programs administered by DECD
Section 12	Section 31	Standardized language that indicates the total amount of new bonds authorized for grant-in-aid programs to municipalities and non-government entities in the following section
Section 13	Section 32	Itemized breakdown of new bond authorizations showing (1) the state agency administering the grant-in-aid program, (2) a description of the program for which the funds are to be used, and (3) the amount of bond funds designated for this purpose. Example: For the Department of Agriculture: State matching grants-in-aid to farmers for environmental compliance, including waste management facilities, compost, soil and erosion control, pesticide reduction, storage and disposal, not exceeding \$500,000;
Sections 14-19	Sections 33-38	Standardized bond authorization language

Appendix B: Glossary of Bonding Terms

Authorized – The amount approved by the General Assembly for a specific project or program.

Unallocated – That amount that has been authorized by the General Assembly but has not yet been approved by the State Bond Commission.

Allocated – That amount that has been approved by the State Bond Commission for a specific project or program.

Unallotted – That amount approved by the State Bond Commission but not yet allotted.

Allotted – That amount approved by the State Bond Commission and specifically set aside to cover expenditures and encumbrances.

Encumbrances – Those obligations in the form of purchase orders or contracts, which are to be met from approved funds.

Unencumbered Balance – That portion of an appropriation or allotment not expended or encumbered.

Unliquidated Encumbrances – Encumbrances that have not yet been paid or approved for payment.

Unexpended Balance – The portion of an appropriation or allotment, which has not been expended.

Expenditures – The amount paid for purchases of goods and services.

2001	1999/00	1,430.8 [15]	1,363.9 [9]	0.0	66.9	(70.1) [16]	1,360.7
2002	2001	1,442.6 [17]	1,361.6 [9]	0.0	81.0	(79.9)	1,362.7
2003	2001/02	1,073.3 [18]	915.3 [9]	0.0	158.0	(380.0) [19]	693.3

[1] Figures show gross authorizations for agencies. Reductions and cancellations appear separately.

[2] Includes \$34 million for various programs related to the June 1982 flood disaster.

[3] Does not include \$100 million in revenue bonding for Bradley International Airport.

[4] Includes \$36.3 million from the Calendar 1983, October Special Session.

[5] Includes \$130.85 million in old projects that were canceled and reauthorized.

[6] Does not include \$250,000 in General Fund Revenue Bonds for the Connecticut Marketing Authority.

[7] Includes \$252.1 million authorized for a stadium in Hartford by PA 93-1 of the September Special Session.

[8] Includes cancellation of \$251.1 million for a stadium in Hartford.

[9] Includes UConn 2000 bond funds: \$112.5 million in FY 96, \$112 million in FY 97, \$93.1 million in FY 98, \$64.3 million in FY 99, \$130.0 million in FY 00, and \$100.0 million in each of FY 01, FY 02 and FY 03. The additional \$20 million was authorized in FY 01 for the UConn Waterbury campus is also included.

[10] Includes tax incremental financing for Steel Point project, Bridgeport (\$120 million) and Long Wharf project, New Haven (\$28 million).

[11] Includes \$274.4 million authorized in the December 1998 Special Session for the Patriots Stadium project in Hartford.

[12] Does not include \$130 million in revenue bonding for Bradley International Airport.

[13] Does not include \$20 million in revenue bonds for Bradley International Airport.

[14] Includes cancellation of \$274.4 million for the Patriots Stadium project in Hartford.

[15] Does not include \$40 million in revenue bonds for Bradley International Airport.

[16] Includes cancellation of \$28 million in tax incremental financing for Long Wharf project in New Haven.

[17] Includes changes made during 11/01 Special Session.

[18] Includes changes made during 5/02 Special Session.

[19] Includes cancellation of \$120 million in tax incremental financing for Steel Point project in Bridgeport.

Table 1

SPECIAL TAX OBLIGATION BOND AUTHORIZATIONS
Fiscal Years 1985-2003
(\$ Millions)

Fiscal Year	Legislative Session	Total Authorizations [1]	Reductions & Cancellations	Net (Tot. - Red.)
1982	From FY 75 to FY 84 the Transportation Fund was included in the General Fund and funding for transportation purposes was provided with General Obligation bonds.

[3] PA 93-1 (September Special Session) authorized \$252.1 million for a stadium in Hartford. SA 95-20 canceled \$251.1 of this authorization.

[4] PA 98-179 authorized \$120 million for the Steel Point project in Bridgeport. PA 02-5 (May 9 Special Session) repealed the authorization.

[5] PA 98-179 authorized \$28 million for the Long Wharf project in New Haven. SA 01-2 (June Special Session) repealed the authorization.

[6] PA 98-1 (December Special Session) authorized \$274.4 million for the Patriots stadium project in Hartford. PA 99-241 repealed the authorization.

Table 3

STATE BOND COMMISSION ALLOCATIONS
Fiscal Years 1982-2002
(\$ Millions)

<u>Fiscal Year</u>	<u>General Obligation Bonds</u>	<u>Transportation Special Tax Obligation Bonds</u>
1982	\$196.1	
1983	195.5 [1]	[2]
1984	298.5	
1985	187.8	\$193.1
1986	238.7	415.4
1987	291.1	278.6
1988	432.3	344.9
1989	469.9	787.9 [3]
1990	925.0	748.7 [4]
1991	684.7	0.0
1992	830.2	419.5
1993	890.3	244.1
1994	762.8	204.5
1995	980.7	190.6
1996	555.3	183.2
1997	606.3	180.7
1998	751.8	193.8
1999	769.2	186.5
2000	943.3	208.0
2001	956.1	204.2
2002	1,593.5	207.9

[1] Does not include \$100 million in revenue bonding for Bradley International Airport.

[2] From FY 75 to FY 84 the Transportation Fund was included in the General Fund and funding for transportation purposes was provided with General Obligation bonds.

[3] A total of \$358 million was authorized and allocated in FY 89.

[4] A total of \$451.3 million was authorized and allocated in FY 90.

[1] For years from 1975-1992 Section 3-21 CGS stipulated that when issuing debt (principally bonds and notes) the state could not exceed 4.5 times the total General Fund tax receipts during the previous fiscal year which ended not less than three or more than fifteen calendar months prior to such issuance. For years beginning after 1992 Section 3-21 CGS as amended, set forth the debt limit as 1.6 times the total general fund tax receipts for the fiscal year in which any such authorization will become effective, as estimated by the Joint Standing Committee on Finance, Revenue, and Bonding of the General Assembly in accordance with Section 2-35 CGS.

[2] In computing adjusted aggregate indebtedness for comparison with the debt limitation Sections 3-21 provided for the following additions and deductions to the total debt outstanding:

Additions:

1. Bonds and notes guaranteed by state

Deductions:

1. Revenue (tax) anticipation notes
2. Refunding or replacing indebtedness
3. Bond anticipation notes
4. Obligations payable solely from revenues of a particular public improvement
5. Aggregate value of cash and securities in debt retirement funds of the state to be used to meet principal of debt outstanding
6. All amounts certified by Secretary of Office of Policy and Management as estimated payments on account of the costs of any public improvement to be reimbursed to the state by the Federal Govt. and to be used to pay principal.

[3] Includes Patriots stadium project in Hartford (December 1998 Special Session).

[4] Includes November 2001 Special Session

[5] Includes May 2002 Special Session

[6] The Office of Policy and Management supplied the budgeted tax revenue estimates, which form the basis for calculating the statutory debt limit, because the legislature did not adopt revised FY 03 revenue estimates.

Table 6

Distribution of Capital Equipment Purchase Fund by Agency for Fiscal Years 1998-2002

The Capital Equipment Purchase Fund (CEPF) is authorized by CGS Sec. 4a-9 and has been used for the purchase of equipment with a useful life of at least 5 years. It is financed through the sale of General Obligation bonds and is administered by the Office of Policy and Management.

[1] Please note that although the program was established in 1986, it was not funded until FY 97.

[2] The FY 00 grants were funded with FY 99 operating budget surplus rather than General Obligation bond funds.

[3] The FY 01 grants were funded with FY 00 operating budget surplus rather than General Obligation bond funds.

Source: State Treasurer's Office

Notes:

[1] Bond rating indicates general obligation bond rating:

AAA = Best Investment grade

AA1/AA+ = Better Investment grade

AA = High Investment grade

Aa 2 and Aa3 = Subdivisions of High Investment grade

AA- = High Medium investment grade

A = Better medium investment grade

[2] Fitch Investor Services was added beginning August 21, 1992.

[3] Includes ratings for November, 2002 GO bonds and November, 2002 STO bonds.

Table 11

Footnotes

[1] PA 84-254 established the Transportation Fund from which all transportation-related debt service must be paid.

[2] The figure includes a \$39 million debt service payment in FY 91 for housing-related bonds by the Connecticut Housing Finance Authority (CHFA).

[3] The General Fund and Transportation Fund totals reflect a \$10 million payment by the General Fund of transportation-related debt service.

[4] PA 97-11 (June 18 Special Session) appropriated \$40 million for debt service payments of \$20 million in FY 98 and \$20 million in FY 99. An additional \$4 million was appropriated for debt service payments on nursing home bonds issued by the Connecticut Health and Education Facilities Authority (CHEFA) and secured by a special capital reserve fund. Expenditure of these amounts is reflected in this table.

[5] PA 97-309 required the Treasurer to use any year-end balance in the Transportation Fund balance that exceeds \$20 million to reduce outstanding indebtedness or the debt service requirements of the Fund. In September 1997, \$84.9 million was used to cash defease \$80.8 million of bonds. In May 1998, \$9.8 million was used to pay debt service due in FY 99. In December 1999, \$81.8 million was used to cash defease \$84.9 million in bonds. In June 2000 the Treasurer directed that the remaining surplus of \$1.5 million will be used to pay debt service due in FY 01. PA 00-170 repeals the provision that permits balances in excess of \$20 million be directed toward debt reduction or for the payment of debt service requirements on STO bonds, and allows surplus balances to be carried forward as had been in practice prior to PA 97-309. Please note that the figures in this table do not reflect debt service for the defeased debt because payment are made from the escrow account and not the appropriated debt service account.

[6] SA 98-6 appropriated \$15 million from the FY 98 budget surplus to FY 98 Transportation Fund debt service and carried these funds forward to the FY 99 debt service appropriation. The FY 99 figures reflect this carry forward.
